POSITION DESCRIPTION

10-1 POSITION DESCRIPTION

When a technician alleges inequities in their position classification, they will be furnished information of the classification appeal rights in accordance with applicable regulations. The Labor Organization will be afforded the opportunity to represent the technician in discussing the matter with management or when presenting a classification appeal. When a new or revised position description (PD) is implemented, the Labor Organization and the affected employee(s) will receive a copy prior to implementation. Copies of present and new PD's will be made available to employees concerned and to the Labor Organization upon written request.

10-2 OTHER DUTIES AS ASSIGNED

1. The statement "other duties as assigned" on all position descriptions simply establishes the principle that the assignment of duties to technicians is not limited to the content of the PD. The sentence is included to cover unexpected tasks or situations of an emergency, temporary, or developmental nature that arise from time to time in any organization.
2. Good personnel management dictates the task assignments should be reasonably related to the work usually assigned to that person, but some circumstances may be completely unrelated. It must be kept in mind that what may be acceptable practice in one situation may be altogether unacceptable in another. For example, an engineer might conceivably be detailed to sweep the floor in the absence of a janitor, but a janitor should never be expected to perform the tasks requiring the professional skills of an engineer.
3. If any "other duties" are assigned with such frequency to meet the definition of "major duties" the PD should be revised. A technician given an assignment not part of the position description is expected to perform the assignment. If the technician is still dissatisfied, the matter should be addressed under the applicable grievance procedure.
4. The agency agrees to fill, if necessary and when possible, bargaining unit vacancies that impact bargaining unit members with additional duties and/or details. The agency will exercise its efforts in good faith, subject to requirements of efficient operations, to avoid establishing additional duty requirements that would create unnecessary hardships, potential health hazards or discrimination against any bargaining unit employee(s).

ARTICLE 11

Standard Form 52b will be submitted if a technician is detailed for 30 days or more.

11-2 PROCEDURE

Management realizes and acknowledges that details of technicians out of their specialty must be used in a judicious manner.

12-7 TECHNICIAN PERFORMANCE AWARDS

It is agreed that the Air Commander will meet with the Labor Organization President on the incentive awards program.

The Incentive Awards Program is designed to improve operations and services. Its purpose is to motivate increased productivity and creativity by recognizing employees whose job performance and/or adopted ideas benefit the agency and are substantially above normal job requirements and performance standards. An award may be earned for high level performance, a suggestion, an invention, or a special act or service, as long as it benefits the government and is outside normal job requirements; or, if within job responsibilities, it is of such high quality that an award is warranted. These awards may be made to an individual technician or shared by a group. The award system is determined by the existing regulation and policy.
